

# OF THE ANIMALS 2011

## IMAGERY FESTIVAL

This is **YOUR INVITATION**

to join us for another great weekend. Our festival brings together people interested in personal and spiritual growth through imagery. **Workshops include animal imagery, chakra work, dreamwork, creative art, Jungian symbolism, Aboriginal Spirituality:** all approaches that

honour intuition and spontaneous imagery in healing and growth work. Following the success of our festival earlier this year, participants decided not to wait a full year for another. Hence,

our plans to visit Bornhoffen again from **28 to 30 October**. **Catering** by Jamie Baird from Fri. eve to Sunday lunch included in the cost. This time includes opportunities to present your own workshop.

The venue has a unique energy highly supportive of healing and growth work. We look forward to seeing you there.

*Best Wishes,*

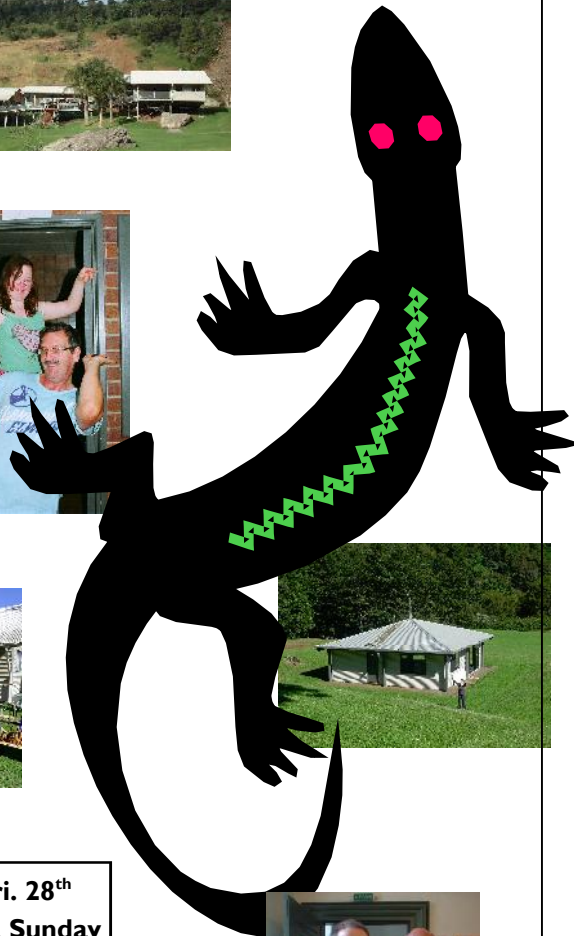

*Frank Coughlan*
